SUMMARY

MERN Stack Developer

Skilled in building scalable apps, writing efficient code, and solving complex problems with DSA. Focused on performance and clean UI/UX.

SKILLS

- Javascript
- React js
- Next js
- Tailwind css
- DSA
- Html/Css
- Firebase
- Postman
- Git
- Jwt
- Node js
- Express js
- Adaptability
- Problem solving.
- stay calm in complex situation
- detail project analysis
- Analytical mindset
- Attention to detail

PROJECTS

LEARNX-LMS

- LEARNX is an LMS (Learning Management System) being developed as an AI-powered study and growth platform.
- Advanced algorithms are being implemented that analyze human behavior and adapt teaching methods based on each student's unique learning nature.
- live demo : <https://learn-x-lms-ai.vercel.app/>

AI-Tech-blog

- A modern blog web app designed for real-time sharing, meaningful connections, and community building with advanced AI moderation.
- Features include personalized feeds, smooth UI/UX, and intelligent content discovery.
- live demo: <https://ai-tech-blog-26p6.vercel.app/>

courier-managment

- Built with the modern MERN stack: MongoDB, Express.js, React.js, and Node.js
- Allows real-time courier tracking and delivery status updates
- Includes secure authentication for both users and admins
- live demo: <https://courier-management-system-iota.vercel.app/>

EXPERIENCE AND ACHIEVEMENTS

1.5 YEAR SELF-LEARNING

- Self-employed developer actively learning and building real-world projects for the past 1.5 years, focusing on modern full-stack development.

150+ LEETCODE PROBLEMS SOLVED

- Gained problem-solving skills and algorithmic thinking by solving a wide range of coding challenges.

6+ PROJECTS

- Developed and deployed various projects.
