SUMMARY

MERN Stack Developer

Skilled in building scalable apps, writing efficient code, and solving complex problems with DSA. Focused on performance and clean UI/UX.

PROJECTS

LEARNX-LMS

- LEARNX is an LMS (Learning Management System) being developed as an AI-powered study and growth platform.
- Advanced algorithms are being implemented that analyze human behavior and adapt teaching methods based on each student's unique learning nature.
- The platform features a highly responsive, fast, comfortable, and sleek UI/UX for an optimal learning experience.

Nexio -social media app

- A modern social media platform designed for real-time sharing, meaningful connections, and community building with advanced AI moderation.
- Features include personalized feeds, secure messaging, smooth UI/UX, and intelligent content discovery..

TypeMate

- Voice-to-Text Conversion – Instantly converts your speech into accurate written text using advanced AI.
- Real-Time Auto Typing – TypeMate types as you speak, no manual effort needed.
- Smart Text Management – Save, edit, or export your notes easily with clean UI and database
-
